

Br. Augusto – “The Purpose of Life” – To Find God!

Sunday, November 29, 2009

Search for truth must be an inner search. Daily and regular deep meditation and study of Master’s teachings.

We’d prefer fun – not to have to read a “manual” – we just want to jump in and enjoy life.

But live with attunement with God. Take God with you! Make meditation and the spiritual life fun. Feel the effect meditation has on your life.

Sometimes this is work. We must make a diligent effort. Go into the heart to find answers in life – to find satisfaction and fulfillment.

“Science of Religion” – explains the purpose of life.

Two common things among all of us:

Avoidance of Pain & Want

Attaining Everlasting Bliss

Avoid pain – connect with God within.

Find God and find yourself – realize who you are – that you are a child of God – that you are one with God. We are one with God right now – we just have to improve our knowing.

Affirmation: “Heavenly Father, You are ever new bliss, ever new joy. We are one with You. We are bliss. We are ever new joy.”

Practice affirmations at the end of meditation – when you pray for others. Also practice during the day to uplift your consciousness.

Master argued with God over our troubled creation, God’s hobby.

God’s answer – “I have made man in my image. If you know this, you will rise above creation.”

We do not see the world as God sees it. We need to realize our divine nature.

Journey to SR – “Why God Created the World” – To exercise our gifts of free will and intelligence to realize our oneness with God.

God responds according to our heart’s desire, manner, and worship.
