Brother Satyananda – “The Miracle of Life”

Divine Gypsies of realization. We need to find our way back to our cosmic home in omnipresence. Red Cloud is the vision of Christ. Every vision Master had of Christ was preceded by this red cloud.

The Miracle of Life - All souls are equal and pure, formless and completely aware of all things. Pure awareness manifesting intelligence through the body.

Lokas – 3 realms – physical, astral, causal. We have 3 corresponding bodies – physical, energy/astral, pure thought/causal – these are like vedic sheaths.

Pg 118 – 2nd Coming of Christ

- Man’s true nature is the soul
- Bodily covering is 3-fold
- 3 bodies tied together and word as one through the 7 chakras

What causes us to wander, to roam?

1. Individualized will power which is pushed by our attachments, habits, and desires.
2. Karma

Life begins in the Astral (where there are only 2 sheaths – astral and causal sheaths)

Souls cue up waiting to come back at the right time, to reincarnate on earth.

Worldometersinfo.com – all kinds of statistics – there’s lots of earthly transiting going on!

Signingbaby.com – teaching pre-speech babies sign language. Babies are able to communicate about the astral world.

The soul is the architect and brings the plans and specifications, determining form and expressions. The soul, bound by karma, chooses the genetic pattern.

Astrological influences – heavenly bodies and their physical energies do affect our human minds and bodies. They don’t affect destiny but do have an influence.

Man’s Eternal Quest – “Man’s Greatest Adventure” talk

Look up conception, birth, body and birth in Gita.
