True Prosperity – Master's poem:

“Divine Father, I care not what I permanently possess, but give me the power to acquire at will whatever I daily need.”

Find abundance in God. Seek shelter in His ever directing wisdom.

Eradicate from your mind all sense of lack or poverty.

Attunement with God and Master is essential. Align yourself with the universal mind. Don't interfere with God's ability to help you.

We'll only receive what we are able to receive. What kind of receptacle are you holding up to catch God's abundance?

Service and generosity = abundance

What you sow, you reap. Have faith in unseen laws. Give to the world the best you have and the best will come back to you.

Master said, “be a divine warrior and fight to the finish.”

Perform your spiritual duties with perfect attention.

Do not add injury to yourself by accepting defeat.

Don't feel sorrow when you don't get what you think you should have. Practice even-mindedness.

Ma enjoyed everything God gave with even-mindedness.

Seeking prosperity and all else will be added unto us. Enlarge your cup of your consciousness.

Start “living” God. March to God thru deep meditation until you are one with Him.

“Don’t let yourself become attached to the luxuries of life.” – Master

“In the future we will live more simply.” – Master’s prediction for us.

“Be prepared for anything.” – Master

Simplify your life. See what you can do without and you’ll be just fine. We don’t need a lot to be happy.

Unnecessary Necessities – get rid of them!

Simplify now before life forces you to. Don’t feel entitled to have everything – this is the ego.

“It’s not what we have. It’s our attitude.” – Master

Sufi Saint – 12th/13th century said, “Avoid greed. It is another form of poverty.” This is maya.

The law is give and receive... not take and take more.

Spiritual principles are eternal. Our world today is out of balance.

We have everything we need – all abundance – inside. Love God and love one another. Put your consciousness in the right place.

Sooner or later God restores balance.

Change is hard enough, but if you resist change you make it worse.

Materialism needs to break down for the higher age to come in. – Holy Science

Always hold to the thought that things are getting better and we are moving upward.

Be kinder to one another.

Move on calmly with courage – keeping in tune with God and Master.

Thou shalt love the Lord Thy God with all Thy heart and all Thy soul. Thou shalt love Thy neighbor as Thyself. Everything is secondary after that.

God wants us to develop “one world.” It will come because of you or it will come in spite of you.
– Master says.

Master told his disciples at Hollywood Temple – “Don’t be afraid. I will guide and protect you.”
